DETAILED ACTION

1. In the advisory action mailed on 7-18-2006, the examiner indicated that claims 1, 4-12 are rejected; and claims 19, 21-22 are allowed. In the amendment filed on 8-14-2006, the applicants cancelled the rejected claims 1, 4-12.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

3. The application has been amended as follows:

In the Specification:

In page 1, paragraph [001] of the Specification, after the sentence "This application is a continuation-in-part of Application No. 10/376,227, filed on March 3, 2003" please insert -- , now US Patent 7,098,141--.

Allowable Subject Matter

4. Claims 19, 21-22 are allowed.

5. The following is an examiner's statement of reasons for allowance: The cited prior arts fail to disclose or suggest the step of depositing a layer of a silicon containing oxide over a gate oxide as the substrate is being etch. The closest prior art (Brown et al.) teaches forming a passivation layer during a passivation step that is separate and distinct from the etching step.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
